

Aayush Miglani

Backend Engineer — payments, rewards, observability.

Gurugram, India · [linkedin.com/in/aayushmiglani](https://www.linkedin.com/in/aayushmiglani) · github.com/AayushMiglani · aayushmiglani.github.io

EXPERIENCE

SalarySe · Software Engineer

Jul 2024 — Present

Gurugram, India

- Designed a high-scale real-time UPI payment infrastructure processing **INR 1B+** in monthly transaction value for **200,000+ users**.
- Developed a comprehensive Rewards system handling **INR 10M+** in monthly transaction volume, enabling seamless credit accumulation and redemption.
- Built a Gift Card marketplace with integrations for **200+ brands**, driving **INR 5M+** in monthly purchases; implemented redemption logic for both cash transfers and in-app wallet usage.
- Engineered a credit report parsing engine in Java (Regex + Jackson ObjectMapper) to extract key financial parameters, feeding a business rule engine that automates product offering decisions.
- Launched an in-app Help & Support ticketing system processing **2,000+ monthly tickets**, streamlining issue resolution for the customer support team.

SalarySe · Software Engineering Intern

Jan 2024 — Jun 2024

Gurugram, India

- Implemented distributed tracing across microservices using Spring Boot MDC and unique correlation IDs minted at the API gateway.
- Integrated Sentry for backend error tracking, establishing the standard monitoring protocol now adopted by the entire backend engineering team.
- Built central operational dashboards in Retool, used daily by the **10-member Customer Support team**, Operations, and Product to manage critical workflows.

BITS Pilani, Goa Campus · Teaching Assistant

Aug 2023 — Dec 2023

Goa, India

- Mentored 60+ students in Digital Image Processing and assisted the professor in conducting and invigilating course evaluation components.

Finlatics · Business Analyst Intern

Nov 2022 — Dec 2022

Remote

- Analysed consumer behaviour in Power BI to generate actionable insights for marketing strategies.

Swecha (NGO) · Web Development Intern

May 2022 — Jul 2022

Remote

- Developed a live video streaming service with chat capabilities, serving the NGO's education outreach program.

PROJECTS

correlation-id-spring-boot

Java · Spring Boot · repo · writeup

Reference implementation for stamping every log line in a Spring Boot fleet with a single correlation ID — servlet filter, Feign interceptor, Log4J2 pattern, and AOP advices to survive `@Async` and `@Scheduled` boundaries.

SKILLS

LANGUAGES

Java, Python, JavaScript, SQL

FRAMEWORKS	Spring Boot
CLOUD / DEVOPS	AWS, Docker, Kubernetes, Sentry, Grafana
DATABASES	PostgreSQL, MongoDB
TOOLS	IntelliJ IDEA, VS Code, Retool, Appsmith

EDUCATION

BITS Pilani, Goa Campus	Aug 2020 — Jun 2024
Bachelor of Engineering in Electronics & Communication	CGPA 8.35 / 10
Relevant coursework: Data Structures & Algorithms, Software Development for Portable Devices, Communication Networks, Probability & Statistics.	

ACHIEVEMENTS

- Achieved top rank in Mobile Telecommunication Networks among 120 students.
- Captained the **BITS Goa VALORANT team**, leading the squad to the BOSM 2023 championship.
